and National Strategy for Suicide Prevention Grant Teams**

**Open to ALL Community Providers Across Pennsylvania**

**Presenter:**

Dr. Guy Diamond, Drexel University

Director of Family Intervention Science and Couple and Family Therapy PhD Program

**Training Description**

This training aims to help therapists engage parents into the treatment process of family intervention. Whether the family conflicts are contributing to the depression or inhibiting the family from servicing as a resource to the youth, this intervention aims to strengthen parents' competency and commitment to the treatment process, regardless of what kind of treatment is being offered. This training focuses on the first session of therapy with a goal of developing treatment goals that motivate all family members to be engaged in treatment and contribute to the responsibility for change. The workshop provides specific skills to achieve this goal. (1 hour)
