

# Caring for LGBTQIA+

## Introduction

**Please join us for a learning opportunity focused on the LGBTQIA community. This interactive course introduces the basic aspects when caring for Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Asexual (LGBTQIA) who may need treatment for substance use or mental health problems.**

**Participants will collaborate on creating a safe environment to explore the constructs of sexual orientation, gender identify and how the care for LGBTQIA can be improved. Participants will explore what we can do as individuals, agencies, and communities to improve services for LGBTQIA.**
